PROJECTS

portfolio website
Jan 2022 - Feb 2023
https://achyutvardhan-portfolio.netlify.app/
This is my personal portfolio website , where you can know me better and can contact me for web development work. This website is made using react library ;

JWT authentication
Feb 2023 - Feb 2023
https://github.com/achyutvardhan/jwt-auth.git
I recently worked on a MERN project . Which includes json web token (jwt) for authentication , using mongo db as database ,using bcrypt for hashing .

react_cart
Oct 2022 - Oct 2022
https://github.com/achyutvardhan/react-project
this is small UI of cart where you can add items delete item and at last can check the total prize .

Railway managment project
Aug 2022 - Sep 2022
https://github.com/achyutvardhan/railway-management-system
This is a small personal project which does CRUD operation on data .

It uses html ,css(bootstrap) , javascript as frontend and Mysql, express.js , node.js as backend .

Smart attendance system

Dec 2021 - Dec 2021

https://github.com/saptarsheemitra/Smart-Attendance-System.git

The software initially takes a picture of all of the authorised people and stores it in a database. The image is then stored by mapping it into a face coordinate structure by the system. when a person enters it recognise and stores it entry time.

fed society website

Jun 2022 - Present

https://www.fedkiit.com/

this is the website for society which will used as displaying potential of our society.
we have taken this intiative because we wanted a platform for registration for conducting an event and show case our society potential
